Add and Edit Todo List with input fields empty.....	4

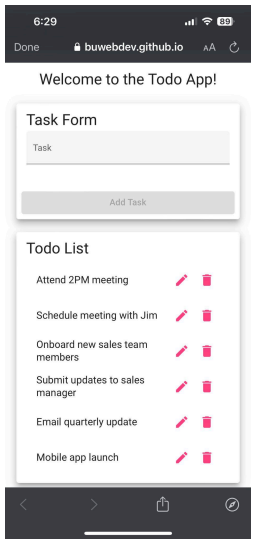

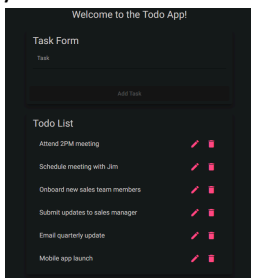

Cody Ferre,
Module 4 Assignment4.2

Test 1	Ensure page loads start and error pages using unique URLs			
	Test Objective: Pages Load Properly using correct URL's.	Developer: Date tested: 2024/09/05	Peer tester: Fatih Suljovic Date tested: 2024/09/08	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail + Screenshot
1	Enter in https://buwebdev.github.io/todo/	Page Loads Successfully	yes	yes 

Cody Ferre, Module 4 Assignment4.2

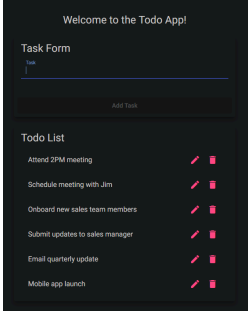

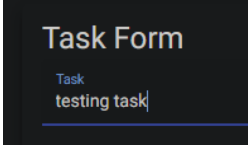

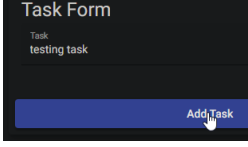

2	Enter in https://buwebdev.github.io/todo/1	https://buwebdev.github.io/todo/not-found Page Loads Successfully	yes	yes
3	Enter in https://buwebdev.github.io/todo/ on a tablet device	Using tablet, Page Loads properly	yes	yes

Cody Ferre, Module 4 Assignment4.2

4	Enter in https://buwebdev.github.io/todo/ on a mobile device	Using mobile, Page Loads properly	yes	yes 
5	Use the Refresh button, to refresh page on each device	Page loads refreshed	yes	yes 
Comments	User can connect to the Todo App through multiple devices from pc to mobile. The URL if given an additional navigation constraint it doesnt have naturally navigates properly to the not found page.			

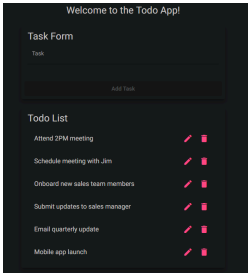

Test 2	Creating a task on Todo List		
	Test Objective: Creating task on Todo List	Developer: Date tested: 2024/09/05	Peer tester: Fatih Suljovic Date tested: 2024/09/08

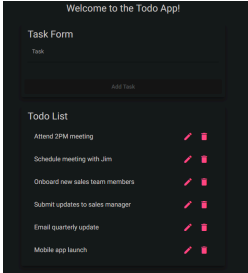

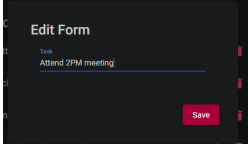

Cody Ferre, Module 4 Assignment4.2

Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open Todo App	Todo App Opens	yes	yes 
2	Click and Type Task Name Bar	Task Typed out in bar	yes	yes 
3	Click Add Task	Task is Added to Todo List	yes	yes 
Comments	The user can type as well as add a new task to the Todo List successfully.			

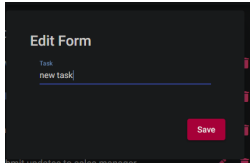

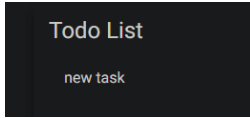

Test 3	Removing a Task from Todo List			
	Test Objective: Delete Task from Todo List	Developer: Date tested: 2024/09/05	Peer tester: Fatih Suljovic Date tested: 2024/09/08	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail

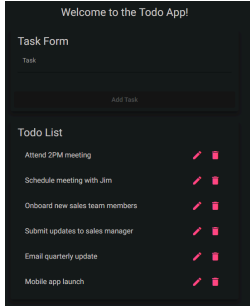

Cody Ferre, Module 4 Assignment4.2

1	Open Todo App at https://buwebdev.github.io/todo/	Todo App Opens	yes	yes 
2	Click on Trash Icon next to Task	Task is removed from Todo List	yes	yes 
Comments		User can remove tasks from the Todo List with no issue.		

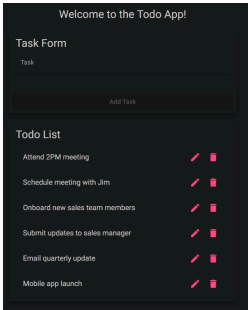

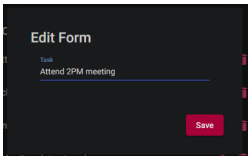

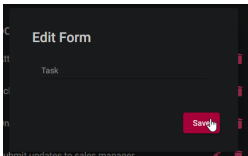

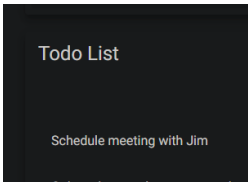

Test 4	Editing a Task from Todo List			
	Test Objective: Delete Task from Todo List	Developer: Date tested: 2024/09/05	Peer tester: Fatih Suljovic Date tested: 2024/09/08	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open Todo App at https://buwebdev.github.io/todo/	Todo App Opens	yes	yes 
2	Click on Pencil Icon on Todo List	Opens Edit Form	yes	yes 

Cody Ferre, Module 4 Assignment4.2

3	Delete and Type new Task in Edit Form	Task is edited to new task input	yes	yes 
4	Click Save button to save edited Task	Task is saved and edited in Todo List	yes	yes 
Comments	The user can edit an existing task to something new if the occasion arises.			

Test 5	Add and Edit Todo List with input fields empty			
	Test Objective: Add and Edit task with empty inputs	Developer: Date tested: 2024/09/05	Peer tester: Fatih Suljovic Date tested: 2024/09/08	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open Todo App at https://buwebdev.github.io/todo/	Todo App Opens	yes	yes 

Cody Ferre, Module 4 Assignment4.2

2	With empty input click Add Task	Task isn't added to Todo List	yes	yes 
3	Click on Pencil Icon on Todo List Task	Opens Edit Form	yes	yes 
4	Empty input Field	Input is Empty	yes	yes 
5	Click Save with Edit Form input empty	Doesn't allow empty Task Save	no	no 
Comments	The user is still able to edit and save the existing task as an empty field. It shows up in the same listed spot with no other issue than a blank name.
